The Sunseeker 76 Yacht (frequently marketed as the 78' Sunseeker due to its total length of 77' 5") is a masterclass in modern British yacht design, striking a perfect balance between an owner-operator vessel and a full-service superyacht. What makes this 2021 model stand out is its extraordinary use of glass; the main deck features near-360-degree panoramic windows that flood the salon with natural light and provide an unbroken connection to the sea. The layout highlights include a stunning "Beach Club" at the stern—complete with a fold-down barbecue grill and fold-away seating—and a forward-thinking galley-aft arrangement that makes entertaining between the cockpit and the salon effortless. For family trips, the four-cabin, four-bathroom configuration ensures every guest has a private, voluminous sanctuary.

Technically, the Sunseeker 78 specs are engineered for a smooth and commanding performance. Usually powered by twin MAN V12...
